DESCRIPTION OF DUTIES
Performs various professional activities necessary to the operation of the data center. Works independently on complex tasks involving systems software choice, installation and maintenance, modified performance enhancement and problem diagnostics.

CORE FUNCTIONS

- Initiates and maintains procedures for reporting on system administration and utilization. Represents the department at conferences and meetings for the purpose of providing advice and guidance.
- Obtains information as to use needs and participates in decisions of necessary courses of action. Initiates projects or services for the generation, modification and maintenance of systems of software in a large multi-user environment.
- Acts as a liaison with the computer manufacturer or software vendor. Prepares standards and procedures with respect to system software.
- Provides assistance to applications programmers and analysts on the usage of available resources in relation to software and hardware.
- Resolves problems between programming and computer operation staff related to systems software or operation procedures.

WORKING CONDITIONS
The position is physically comfortable; the individual has discretion about walking, standing, etc.

MINIMUM EDUCATIONAL REQUIREMENTS
Requires a Bachelor's degree in Business Administration, Statistics, Computer Science or a closely related field.

MINIMUM EXPERIENCE REQUIREMENTS

- Four (4) years of experience in data communications analysis and design, programming systems design and maintenance, operating systems software support, or a closely related field are required.
- Directly related professional experience may be substituted for the education requirement on a year-for-year basis.
